INVITED COMMENTARY
Pharmacist Interventions: Unique Perspective Versus Taking the Lead in Nutrition Support When Knowledge and Skills Overlap With Other Healthcare Disciplines
Carol J. Rollins, MS, RD, PharmD, CNSC, BCSNP, FASPEN

LETTERS TO THE EDITOR
Full-Feeding With Enteral Nutrition Is Not Always “Full-Feeding” in Research and Clinical Practice
Emma Ridley, BNutriDiet, MPH; Andrew Davies, FRACP; and David (Jamie) Cooper, BMBS, MD, FRACP, FCICM
Response to Ridley et al
Jinkyeong Park, MD; and Eun Young Choi, MD
Do We Know the Benefits of a Taurolidine Lock in Adult Home Parenteral Nutrition Patients With a Low Infection Rate?
Evelyn D. Olthof, MSc; Mark M. T. J. Broekman, MD; and Geert J. A. Wanten, MD, PhD
Response to Olthof et al
Stanislaw Klek, MD, PhD; and Kinga Szczepanek, MD
Validation of the V\textsubscript{max} Metabolic Cart in a Simulated Pediatric Model
Craig D. Smallwood, BS, RRT; Andrew Gouldstone, PhD; and Nilesh M. Mehta, MD
Response to Smallwood et al
Kristen N. Wines; Alexandra K. Rzepecki, BS; Audrey L. Andrews; and Ronald E. Dechert, DrPH, MSc, RRT

TUTORIAL
Nutrition Rehabilitation in the Intensive Care Unit
Pablo Lucas Massanet, MD; Laurent Petit, MD; Benjamin Louart, MD; Philippe Corne, MD, PhD; Celine Richard, RD; and Jean Charles Preiser, MD, PhD

ORIGINAL COMMUNICATIONS
Glutamine and Antioxidants in the Critically Ill Patient: A Post Hoc Analysis of a Large-Scale Randomized Trial
Daren K. Heyland, MD; Gunnar Elke, MD; Deborah Cook, MD; Mette M. Berger, MD, PhD; Paul E. Wischmeyer, MD; Martin Albert, MD; John Muscedere, MD; Gwynne Jones, MD; and Andrew G. Day, MSc, on behalf of the Canadian Critical Care Trials Group
Physicians’ Perceptions Regarding the Detection and Management of Malnutrition in Canadian Hospitals: Results of a Canadian Malnutrition Task Force Survey
Donald R. Duerksen, MD; Heather H. Keller, PhD; Elisabeth Vesnaver, MSc; Johane P. Allard, MD; Paule Bernier, RD, MSc; Leah Gramlich, MD; Hélène Payette, PhD; Manon Laporte, RD, MSc, CNSC; and Khursheed Jeejeebhoy, MBBS, PhD
Computer-Based Malnutrition Risk Calculation May Enhance the Ability to Identify Pediatric Patients at Malnutrition-Related Risk for Unfavorable Outcome

Thomais Karagiozoglou-Lampoudi, MD, PhD; Efstratia Daskalou, MSc; Dimitrios Lampoudis, MSc; Aggeliki Apostolou, MSc; and Charalampos Agakidis, MD, PhD

A Qualitative Study of the Perceived Value of Membership in The Oley Foundation by Home Parenteral and Enteral Nutrition Consumers

Katelyn Chopy, MS, RD, LDN; Marion Winkler, PhD, RD, LDN, CNSC; Donna Schwartz-Barcott, PhD, RN; Kathleen Melanson, PhD, RD, LDN; and Geoffrey Greene, PhD, RD, LDN

Examination of Accuracy in the Assessment of Gastric Residual Volume: A Simulated, Controlled Study

Rebecca J. Bartlett Ellis, PhD, RN; and Joseph Fuehne, PhD

Prevalence, Risk Factors, Clinical Consequences, and Treatment of Enteral Feed Intolerance During Critical Illness

Usha Gungabissoon, MSc; Kimberley Hacquoir, MPhil; Chanchal Bains, BSc; Michael Irizarry, MD, MPH; George Dukes, PhD; Russell Williamson, PhD; Adam M. Deane, MB BS, PhD; and Daren K. Heyland, MD, MSc

Evaluation of Nutrition Deficits in Adult and Elderly Trauma Patients

Charles E. Wade, PhD; Rosemary A. Kozar, MD, PhD; Carmel B. Dyer, MD; Eileen M. Bulger, MD; Marina Mourtzakis, PhD; and Daren K. Heyland, MD

Prospective Cohort Study Comparing the Effects of Different Artificial Nutrition Methods on Long-Term Survival in the Elderly: Japan Assessment Study on Procedures and Outcomes of Artificial Nutrition (JAPOAN)

Seiji Bito, MD, MSHS; Tetsuo Yamamoto, MD, PhD; Harumi Tominaga, MD, PhD; and JAPOAN Investigators

Vitamin D Status and Severity of Clostridium difficile Infections: A Prospective Cohort Study in Hospitalized Adults

Gwendolyn M. van der Wilden, PhD, MSc; Peter J. Fagenholz, MD; George C. Velmahos, MD, PhD; Sadeq A. Quraishi, MD, MMSc; Inger B. Schipper, MD, PhD; and Carlos A. Camargo, Jr., MD, DrPH

Vitamin D Deficiency in Children With Intestinal Failure Receiving Home Parenteral Nutrition

Laura J. Wozniak, MD, MS; Hannah M. Bechtold, BS; Laurie E. Reyen, RN, MSN; Theodore R. Hall, MD; and Jorge H. Vargas, MD

BRIEF COMMUNICATIONS

Evaluation of Nutrition Support Pharmacist Interventions

Amanda Giancarelli, PharmD, CNSC; and Evangelia Davanos, PharmD, BCNSP, CNSC

Sarah A. Karim, MPharm; Baharudin Ibrahim, PhD, MPharm; Balamurugan Tangisuran, PhD, MPharm; and J. Graham Davies, PhD, FRPharmS

Erratum

The A.S.P.E.N. Rhoads Research Foundation depends on gifts from caring individuals to continue its work. Honor the memory of a loved one or celebrate a special occasion by giving a gift to the A.S.P.E.N. Rhoads Research Foundation.

We have now made it easier to support the foundation by providing a secure online donation form on our Web site: www.nutritioncare.org. In addition to the online donation form, you can also charge your gift to a Visa, Mastercard, or American Express account by phoning our office, or you can mail a personal check directly to the A.S.P.E.N. Rhoads Research Foundation.
